

About Me

Technical Lead and engineer with over 8 years of experience helping **distributed remote teams** deliver robust, well-designed software. I combine **hands-on development**, technical guidance, and close **collaboration** to achieve high-quality results.

My expertise is in **JavaScript**, **Node.js**, and **web development**. I work with engineers, product managers, and designers to align vision and execution—providing **architectural advice**, **mentorship**, and a strong focus on delivery quality.

I am passionate about understanding how systems work and continuously deepening my technical knowledge. Recently, I have been exploring ways to integrate **AI** into my workflow to boost efficiency and streamline processes. I occasionally contribute to **open source** when the opportunity or need arises.

Work Experience

Technical Lead & Full-Stack Engineer — JLL

Aug 2021 – Present

- **Lead development** of business-critical applications using **TypeScript**, **Node.js**, **Angular**, **React**, **Next.js**, and **NestJS**.
- **Drive global cross-team alignment** and communication across **product**, **design**, and **engineering** teams to ensure smooth project execution.
- **Improve team efficiency** and expertise through **engineering guidance**, **mentorship**, and **delegation**.

Full-Stack Engineer & Trainer — Freelance

Jan 2020 – Aug 2021

- Built a performant **PWA** with **server-side rendering** and advanced hydration using **React** and **Express** for a client's corporate website.
- Delivered **over 1,000 hours of on-site training**, teaching **full-stack web development** to aspiring developers and corporate teams. Covered **JavaScript**, **Node.js**, **Web components**, **Angular**, **React**, **Vue**, and **Web fundamentals**—working with clients such as **BBVA**, **Telefónica**, or **ONCE**.

Frontend Engineer — BBVA

Jun 2018 – Jan 2020

- Contributed to the core team of a major Spanish banking site, enhancing the **developer experience** for 50+ professionals using **plain JavaScript**.
- Maintained and evolved infrastructure to improve **performance**, **accessibility**, **testing**, and the **build process**.

Fullstack Engineer — Opinno

Oct 2017 – Jun 2018

- Used **React** and **Node.js** for delivering smart-building solutions.

Frontend Engineer — Alfatec Sistemas

Dec 2016 – Oct 2017

- Contributed to the development of a hospital information system using **Angular**.

Education

BS Software Development — UPV

Sep 2014 – Sep 2020

- Thesis about modular web development proposing a **micro-frontend** based architecture.

Skills

Leadership

- Mentorship
- Communication
- Collaboration
- Delegation
- Decision-Making
- Planning
- Delivery
- Culture

Languages & Frameworks

- JavaScript / TypeScript
- CSS / SCSS
- Web Components
- React
- Angular
- Vue
- Next.js
- Node.js
- Nest

Architecture & Design

- Clean Architecture
- DDD
- CI / CD
- API Design
- Authentication
- Security
- Accessibility
- Performance
- Monorepos

Languages

- Spanish

Native speaker
- English

Full professional proficiency
